

Scrubbies - Barb Langlois' personal pattern

You need a 10 meter length of netting fabric.

H or J size crochet hook.

Fold the fabric from side to side and pin in place.

Cut the netting into 1 1/2 to 1 3/4 inch wide strips by cutting across the folded fabric.

Knot the strips together and wind into a ball.

SC: Single Crochet

DC: Double crochet

Chain 4. Join.

Round 1: 1 SC. 10 SC into the circle. Join.

Round 2: Chain 3, (acts as 1st DC), 2 DC in each SC. (20 DC total). Join.

Round 3: Chain 3 (acts as 1st DC), 2 Dc. in each Dc. (40 Dc. total). Join.

Bind off leaving a tail long enough to sew the two sides together, if possible, on one of the circles.

Make another crocheted circle to match and sew together, this one not requiring a long tail to sew together if you were able to leave one on the 1st circle.

When you come across a knot in the netting, just incorporate the knots into the circle; they will be hidden inside when the two sides are sewn together.

PS. If you wait for a sale at Fabricland (if you are a member), you can get the fabric for \$15 for the 10 meters and it makes at least 15 or more Scrubbies and a profit of \$45 if you sell them for \$4 each.
